ULYSSEUS HIGHLIGHTS

Ulyseus Welcome Day: welcoming our new international students

On 2 October, the University of Seville welcomed students arriving from Ulyseus partner universities for the new academic year. The event, promoted by the IMAgein Master's programme, brought together newly arrived students to discover the academic opportunities offered by Ulyseus, as well as student associations and services available at the University of Seville. The Welcome Day also provided a great opportunity to connect international students with the university community from their very first days.

The event was complemented by a historical tour of Seville, giving students the chance to discover the city, its history and its cultural heritage while getting to know each other and creating their first memories together. It was also a special occasion to celebrate the achievements of our Ulyseus community and welcome a new generation of international students to Seville.

More events coming soon — stay tuned!
